**SOLUTIONS FOR
SOLAR TECHNOLOGY**

**MONTECH –
PARTNER OF THE SOLAR INDUSTRY**

The leading suppliers of turnkey solutions rely on Montech for their transport systems.

With our specialization and long-standing experience, we can deliver tailor-made solutions for specific customer requirements.

In production lines, Montech's belt conveyors carry wafers with high accuracy and soft movements.

We are accustomed to moving in the «**µ**» range.

For intralogistics before, after and between the lines, the Montrac system offers an ideal solution: smooth and soft transport, independent control and maximum flexibility guarantee perfect handling.

Other distinctive features of Montrac are cleanliness and hygiene: in the standard execution, Montrac meets ISO Class 5 standards, and also a ISO Class 4 variant is available.

With a partner like Montech, Turnkey Solutions, Intralogistics and Full Factory Automation are not just keywords, but real concepts.
